SOREL QUEBEC TELEPHONE 540

November 22nd., 1945.

Mr. S.R. Morse
R 3, Bradford
Mass., U.S.A.

Dear Mr. Morse,

This is to acknowledge with great pleasure your report on our DX Program transmitted from our Station on the morning of the 14th. inst., from 4.30 am. to 5.30 am. We are glad to inform you that the musical selections, songs, etc., as reported are in conformity with those inscribed on our program. As further confirmation, we submit for your perusal a copy of our complete program.

Contrary, however, to the belief of the majority of those who have sent in reports our Station operates with a power of 100 watts only, though we have hopes to increase it to 250 watts in the near future.

We wish to thank you for the technical details which you have given us. These details should prove to be useful.

You will no doubt be pleased to hear that we have received to date some 30 reports from various places in the United States as well as a few from parts of this country. (list is attached herewith).

In conclusion, we should like to say that this has been a most interesting experience and we shall look forward to participate in another DX Program at the request of the National Radio Club, particularly if, and when we have increased our power to 250 watts.

We take the opportunity to invite you to visit Sorel and our Station, should you have the occasion at some future date to be in this vicinity.

With cordial thanks.

Yours very truly,

Radio Station C J S O.

Leo Charlebois

L. Charlebois,
Manager.
